Limestone and clay

CONSERVATION POTENTIAL

3-5 years

VINIFICATION

Les Perrières is a vineyard located in the village of Chassey-Le-Camp on the edge of Santenay. The plot is on a hillside with a north-east exposure giving it all its freshness and energy. The lower part is planted with Pinot Noir and the upper part, which contains more limestone, with Chardonnay.

After directly pressing the whole grapes the juice is transferred to stainless tanks. The must is then put in oak barrels by gravity and naturally starts the alcoholic fermentation. The aging occurs on the lees for 12 months (0% of new oak) and then 4-6 months in steel tanks.

TASTING NOTES

Pleasant nose with citrus notes. On the palate the wine flows with distinction. The wine is fleshy with a beautiful energy. Length is long.
