VINIFICATION

This terroir is located above the Gravières in Santenay. Its origin comes from the impressive view of the vineyard. Beauregard for beautiful view. Our plot is right next to the windmill. The soil is composed of limestone and has many rocks.

After directly pressing the whole grapes the juice is transferred to stainless tanks. The must is then put in oak barrels by gravity and naturally starts the alcoholic fermentation. The aging occurs on the lees for 12 months (30% new oak) and then 4 to 6 months in steel tanks.

TASTING NOTES

The nose reveals notes of acacia with a hint of ripe apples. The palate is generous and long.
